

QUANTITY LEVEL LIMITS

Quantity Level Limits

Quantity level limits help ensure that coverage is provided for the appropriate amount of medication, while minimizing your health risks and encouraging cost-effective use. These limits are based on the drug manufacturer’s recommendations, the Federal Drug Administration (FDA) guidelines, and WellDyneRx’s Pharmacy and Therapeutics (P&T) Committee (a team of doctors, nurses and pharmacists) review. As long as medications subject to quantity limits are prescribed within these limits, your plan covers their costs. If your prescription is written for more than the allowed quantity, only the maximum allowed amount will be dispensed unless prior authorization has been obtained by your doctor for a higher quantity.

Please Note: This drug list is subject to change. For the most current Quantity Level Limits and program criteria, please visit emhp.welldynex.com.

The drugs listed below are shown with their maximum quantity level limit.

Brand Name	Generic Name	WellDyneRx Quantity Level Limit Per 21 Days	WellDyneRx Quantity Level Limit Per 90 days
ABILIFY	ARIPIRAZOLE 10 MG TABLETS	21	90
ABILIFY DISCMELT	ARIPIRAZOLE DISCMELT TABLETS RAPDIS	21	90
ABILIFY MAINTENA	ARIPIRAZOLE IM FOR EXTENDED RELEASE SUSP	1	3
*ABSTRAL	FENTANYL CITRATE TABLETS SUBLINGUAL	90	360
