

Standard Prior Authorization List

Prior Authorization is generally utilized to promote quality utilization practices of potentially high cost, limited use, or inappropriately utilized medications. If you fill or refill a prescription for any drug that requires prior authorization, your doctor must obtain authorization from WellDyneRx before the prescription will be covered. Medications that require prior authorization are listed below. Please note that this list is not all inclusive.

Please Note: This drug list is subject to change. For the most current Prior Authorization list and program criteria, please visit emhp.welldynerx.com.

BRAND NAME	GENERIC NAME
